

The blade will be made of 1 layer 300g chopped e-glass and 5 layers of 600g chopped e-glass. This will give 7-8mm thickness of skin.

The stock will be laminated to one side of the blade with 3 layers of 600g e-glass.

The blade will be filled with a PU foam core.

Welding of spokes, will be MIG point welding.

The rudder will be made after ISO12215-8
